EXCEL
Takasago Rim

BEHR

Factory Pro Racing is the premier supermoto wheelset supplier in the USA. We utilize Excel Takasago Japanese rims and Behr German rims in all the wheels we manufacture. We build all our supermoto wheels to ensure the proper off-sets in the rear for chain clearance so you will not encounter that chain slap problem you see on many supermoto wheels. The wheels are all built with the finest stainless steel oversized spokes and nipples for added strength thus ensuring our customers they are receiving the most durable wheels on the market. We utilize the finest billet aluminium hubs made in the USA as well as OEM hubs. The supermoto wheelsets are available for all the popular models. We supply all the most popular sizes including 16.5 x 3.5 & 17 x 3.5 fronts and 17 x 4.5, 17 x 4.25 , 17 x 5.0, 17 x 5.5 rear heels.

**Supermoto wheelsets range in price from \$800 to \$1300 per set.
